Song BAREFOOT BOOKS

[https://youtu.be/SAHy\\_2IFFGA](https://youtu.be/SAHy_2IFFGA)

Hello boys and girls, escolteu la cançó que sonarà quan cliqueu al link d'aquí damunt. I ompliu els buits amb les paraules que hi ha dins la taula. I a cantaaaaar!! Si teniu germans petits a casa segur que us ajuden que l'han escoltat mil vegades.

planets	Earth	galaxy	stars	Sun
satellite	universe	Milky Way	solar system	Moon

Space song rocket ride

10,9,8,7,6,5,4,3,2,1...Blast off

In the \_\_\_\_\_

spins a galaxy

It's a spiral of stars

called the \_\_\_\_\_

And the bright stars shine all around, all around.

And the bright stars shine all around, all around.

In among that stars

Of that galaxy

It's our solar System

Where eight \_\_\_\_\_ spin.

The planets that spin

In the solar System

In the galaxy

Where the bright stars shine all around, all around.

Where the bright stars shine all around, all around.

In the middle of the planets

Shines a burning Sun

The sun is our own star

A bright blazing ball.

The Sun in the middle of the planets that spin

In the solar System

In the \_\_\_\_\_

Where the bright stars shine all around, all around

Where the bright stars shine all around.

And around that Sun

Orbits our blue Earth

Blue from the water

That gives us life.

The Earth around the sun

And the \_\_\_\_\_ in the middle

Of the planets that spin

In the solar system

In the galaxy

Where the bright stars shine all around, all around

Where the bright stars shine all around.

And around that Earth

Orbits a Moon

Turning every month

Tugging at the tides.

The \_\_\_\_\_ around the Earth and the Earth around the Sun

And the Sun in the middle of the planets that spin

In the \_\_\_\_\_

In the galaxy

Where the bright stars shine all around, all around

Where the bright stars shine all around!

-Look at all the stars!!!

- Whoa! Asteroid belt!

- That looks like a shooting star!

- It must be a meteor!

-I think I can see Jupiter's moons!

-Wait, that's not a Moon!

-It's a \_\_\_\_\_!

-Is that a black hole?

-Whoaaaaaaaaaaaa

Down on the Earth

We watch the sky

The twinkling stars

Wink down at us.

The stars in our eyes

And the Moon around the \_\_\_\_\_

And the Earth around the Sun

And the Sun in the middle

Of the planets that spin

In the solar system

In the galaxy

Where the bright stars shine all around, all around

Where the bright \_\_\_\_\_ shine all around.
